

PRIME - Hot tub with external stove

€1,573.00

The tub with an external heater PRIME is a round-shaped tub. It is a great choice for a family or a group of friends.

The PRIME hot tub has an external heater (or oven) which, compared to the Elite hot tub, does not take up any space inside the hot tub, allowing for more people.

The shape of the PRIME fibreglass tub has enclosed seating, so the water capacity is smaller than a natural wooden or plastic tub.

Depending on the choice of PRIME hot tub size (internal diameter can be 180 cm or 200 cm), it is an excellent choice for a group of 6 to 10 people.

Applications:

All the tub needs is a level base to allow the structure to stand upright. It can be grass, cobblestones or gravel.

There is an electric plug attached to the tub. Wiring with leakage relay and fuses is only for electric heater configuration. If necessary, we can add it to a simple bathtub with water or air massage systems.

UAB SPA EUROPE does not carry out the electrical installation from your house to the hot tub, but it is an easy job for a qualified local electrician.

Delivery costs:

You can collect the hot tub yourself free of charge from the warehouse in Varputėnai.

If delivery is required from our side, ask about the price individually. The delivery price depends on the distance. Hot tub is dispatched from the city of Varputėnai.
