

Insulated cover 225

€326.70

Thermal cover. It is also called a thermal cover or an insulated cover

The cover is sewn from eco-leather, hard, moisture-resistant foam polystyrene is placed inside, reinforced with a galvanized profile.

The thermal lid has a slope, the lid is 10 cm in the middle and 7 cm at the edges. There is also a built-in profile in the middle,

therefore will withstand snow and water in all weather conditions.

The insulated cover is durable and keeps the heat inside the tub much longer than a standard fiberglass cover.

- Outside diameter **225 cm**
- Material **Eco leather**
- Form **Round**
