Manufacturer of hot tubs and saunas

Hobi sauna - HB60

€13,310.00

Create your own personal retreat with this stunning outdoor sauna from Spa Europe. Crafted from high-quality wood, this Hobi sauna features a full panoramic front tampered 8 mm window, hinged door from a side, shingle roof for a stylish finish. The sauna is designed for easy installation and assembly, with non-slip flooring and seating for up to 6-7 people. Enjoy the benefits of a woodburning heater from the Harvia 36 and relax with the included LED lights, and speakers. This dry sauna requires no assembly and comes with a 2-year manufacturer warranty. Designed for outdoor installation, this sauna is perfect for your gardenor patio.

Applications:

If you choose a wood-burning stove, then chimney, heat-resistant plate and stones are included in the set. You can choose the hot water capacity only if you choosea wood-burning stove.

All the sauna structure needs to stand upright is a level base and good access - a driveway into your yard.

Electrical installation (only applies to electric heater configuration). There is an electric plug at the sauna. If the stove is 3.5 kw or 4.5 kw, the electrical input can be single-phase, but if the stove is 6 kw or more, a three-phase electrical input is already required. UAB SPA EUROPE does not carry out electrical installation work from your house to the sauna, but it is an easy job for a qualified local electrician.

The delivery of the sauna takes place in the following ways:

1) Selected sauna (flat pack) - the price includes the selected sauna, placed in a special box (on a pallet) together with instructions for assembling the sauna. The price does not include installation of the sauna in your yard and painting of the product.

2) Assembled sauna in the warehouse - the price includes the assembly of the sauna in the warehouse and painting the product in the color of your choice. 3) Assembled sauna in your yard - The price of assembling each sauna in your yardis an individual order and depends on: transportation distance, access to youryard, and other conditions. Sauna painting works are not carried out in the client'syard, because the weather may be cool, humid and other unfavorable conditionsthat will not allow the sauna to be properly painted/impregnated right away. Ittakes about 1-2 working days to assemble the sauna in the yard. Contact sales@spaeurope.eu for price.

Delivery costs and time:

The price depends on the distance and location. If delivery is required from our side, ask about the price individually.

Lifting/loading equipment is absolutely necessary for unloading. Exception - lifting/loading equipment is not required if the product is delivered in flat pack and assembled by the Spa Europe team. However, helpers are needed to load the chosen sauna in parts and take them to the sauna assembly place. Delivery time depends on distance and location. Please ask individually.

Payment and production term:

A 50% deposit is required before production and the rest of the payment before delivery. Payment is made according to the invoice in cash, bank transfer, paypal or bank card and cryptocurrency in the online store.

Production time 8-10 weeks. The term depends on the production load.

Warranty and return conditions:
